

## Measurements, and Helpful Hints

- **InDesign and PDF files are not accepted as printable files.**

- This file is set-up to scale at 50% of final output size.
- At final output size, file should contain 2" of bleed on all four sides.
- Due to the nature of stretch in textiles, there may be some minor distortion of the art.
- All text should be 2" in from edges and overlaps (not including bleed) to prevent stretch distortion of the art.
- If using multiple frames, the overlap of the front frame will cause a 4.5" obstruction of the back frame.  
We suggest adding an additional 2" of clearance from the edge of the front frame (a total of 6.5") for all text.
- Check for placement of any monitors, counters, or placards when designing your graphic lay-outs
- Please see our standard graphic guidelines for general file set-up assistance.

Front side graphic lay-out for all island and inline configurations.

Visual size All critical elements, ie text, logos

Cut size Edge borders not recommended

Bleed size Extend backgrounds to line

**Template is built at 50%**
